

ESTO : European specialists of traditional orchards

Pour : DG Education and culture - Lifelong learning program

Date : 2010 - 2014

Partenaires : Thüringer Ökoherz e.V.

Région : Europe - **Domaines** : Agroecology / Strategic planning

"Esto is a European project in the Leonardo program. What is its starting point? The observation that in order to avoid pulling up or abandoning the last traditional meadow orchards of Europe, the managers of rural areas (towns and farmers) must be made aware and trained: - in the preservation of the existing orchards – in restoring abandoned orchards that can be regenerated. – in planting new orchards."
