

Thematic studies in the field of agri-environment

Pour : Joint Research Center - European Commission

Date : 2014 - 2017

Région : Europe - Domaine : Agroécologie

Solagro leads a consortium of 6 European partners in charge of conducting thematic studies about the environmental impacts of European agriculture

Contexte

The Joint Research Center is a Directorate-General of the European Commission providing customer-driven scientific and technical support for the conception, development, implementation and monitoring of European Union policies.

Objectifs

The studies conducted under this framework contract aim at providing European decision makers with up to date and robust information relating to the state of the environment in relation to agriculture.
